Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I am a nurse and naturopathic doctor. I believe in all types of health care. However, I know that natural compounds as herbs, nutrients are used by the body much more efficiently. That is why I prefer and it is my legal choice to use natural estrogen & progesterone. I do not care to use horse urine (Estrogen or Premarin) in my body. Please let pharmacies like Mallinckrodt work with the people who prefer not to use Pharmaceutical drugs when they don't have to. There are C1724 plenty of people who will still use drugs. Don't muddle in, freedom choice issues. It's America, remember! Thank you
